It is very hard, but I think you should challenge yourself to such tough things because you will feel that it was the best later.

Tour Top Companies on a Career Trek

In addition to career fairs, workshops, and mentor teams, the Career & Professional Development Center organizes the annual Career Trek program where students visit and make connections at top companies, getting a first-hand look at their potential future employers.

“The Treks have given me invaluable skills in so many areas,” says Alex Belleba, a Gonzaga graduate who studied business and went on to work at Glassdoor as a sales operations manager. “I’ve converted experiences and interactions on the Treks into at least five interviews, 30 contacts with recruiters, and innumerable handshakes, elevator speeches, and chances to foster my growth as a professional.”

A Multicultural Experience

The ESL program at Gonzaga helped Ngoc, a student from Vietnam, connect with new friends from different countries and improve her English-language skills. Being a part of a diverse community, Ngoc was able to learn more about the world by examining different viewpoints from her peers and professors and was able to become more open-minded and innovative.

“When working with diverse students, I learned to be adaptable and flexible. This enables me to work with people who come from different backgrounds and have different working styles. I have become so much more confident in my English and have better cultural understanding,” says Ngoc.

It is Gonzaga’s heart and hustle that spoke to Japanese student Rui Hachimura, now an NBA player for the Washington Wizards. While at the university, the sport management major strengthened his English-language skills at the English Language Center and developed an immediate connection with the faculty.
